ZONCARE VU60 Veterinary Ultrasound Functional Configuration List | Year 2026

Core Technologies

✦ uSeed Imaging Technology

Adopts self-developed innovative image algorithms to accurately define anatomical boundaries and effectively suppress speckle noise. It comprehensively enhances resolution, penetration and permeability for high-definition tissue visualization, facilitating precise clinical diagnosis.

✦Cardiac AI Intelligent Clinical Solution

Simplify workflow for veterinarians. Zola AI delivers efficient and precise automated measurements with automatic diagnostic prompts to assist clinical decision-making.

✦Integrated High-end Functions for All Clinical Scenarios

Category	No.	Function	Details	Remarks
Standard Config	1	Professional Medical LCD Monitor	21.5”	
	2	High-sensitivity Touch Screen	13.3”	
	3	Hard Disk & Data	1TB hard disk, HDMI video output port, 4*USB 2.0 ports	
	4	Couplant Heating	Standard	
	5	Number of Activated Probe Ports	4	
	6	Electric Lifting	Standard	
	7	Keyboard membrane	Standard	
	8	EMI Module	Standard	
	9	ECG lead and software	Standard	
Basic Functions	10	ZClear--Noise Reduction Imaging	Standard	
	11	SCI	Standard	
	12	FCI	Standard	
	13	HR Flow	Standard	
	14	zMicroFlow	Standard	

	15	EFOV--Extended Field Of View	Standard	
	16	Anatomic M mode	Standard	
	17	Color Hide	Standard	
	18	TSI	Standard	
	19	Auto optimization	Standard	
	20	Magnifier	Standard	
Advanced Functions	21	Elastography	Standard	
	22	Needle Enhancement	Standard	
	23	Biopsy guide	Standard	
	24	Panoramic Imaging	Standard	
	25	Tissue Doppler Imaging（TDI）（TVI、TEI、TVD、TVM）	Standard	
	26	Automatic Spectral Envelope	Standard	
Zola AI For Cardio	27	Auto EF	Standard	
	28	Auto LA/Ao	Standard	
	29	Auto IVSd/LVPWd	Standard	
	30	Auto LVSI	Standard	
	31	Auto EPSS	Standard	
	32	Auto LV(M)	Standard	
	33	Auto MV E/A	Standard	
	34	Auto TV Vmax	Standard	
	35	Auto PV VTI	Standard	
	36	Auto PV Vmax	Standard	
	37	Auto AV VTI	Standard	

	38	Auto AV Vmax	Standard	
Others	39	Wireless Image/Video/Report Transfer	Standard	Compatible wireless NIC to be purchased by end-user
	40	Bluetooth Image/Video/Report Transfer	Standard	Compatible Bluetooth module to be self-purchased
	41	Transfer Assistant	Standard	LAN Direct PC Link
	42	DICOM	Standard	
	43	ZWork	Standard	
	44	Zonnet imaging	Standard	Separate license activation needed
Transducers	45	Main Unit & Transducer	Micro-convex C11-3D	
			Linear L13-5D	
			Mid-frequency Phased Array P10-3D	
			High-frequency Phased Array P12-4D	
	46	Main Unit & Transducer	Micro-convex C11-3D	
			Linear L13-5D	
			Mid-frequency Phased Array P10-3D	
	47	Main Unit & Transducer	Micro-convex C11-3D	
			Mid-frequency Phased Array P10-3D	
	48	Main Unit & Transducer	Micro-convex C11-3D	
			Linear L13-5D	
	49	Main Unit & Transducer	Micro-convex C11-3D	

	50	Optional Transducer	Convex C5-2D	
	51	Optional Transducer	Low-frequency Phased Array P5-2D
